School Nursing for academic year 2025-26

Dear Parent/Carer,

RE: Reception Children Routine Health Screen

The Sutton School Nursing Service aims to assess every child entering the Reception Year at school as part of their transition from Health Visiting to School Nursing. This consists of an online health questionnaire and a height and weight assessment done at school by the School Nursing Team. Children who take part will be asked to remove their shoes and coats and be weighed in normal indoor clothing in a private area away from other pupils. Children will not be made to take part on the day if they do not want to.

Results from both the health questionnaire and measurements are not shared with the school. This information is used by the School Nursing service to provide advice and support to children and their families. Anonymised (de-personalised) data is also used by our Public Health team to better understand the health and care needs of school children and their families in Sutton. All information collected is treated confidentially and held securely by us.

We would be grateful if you could complete the online health questionnaire and give consent for obtaining measurements by scanning the QR code below on your phone or typing/clicking the link address. If you experience any issues please contact us on the phone number above.

Once complete, the questionnaire will be reviewed by a member of the School Nursing team. We will aim to follow up any health needs identified by the end of the Spring Term. If you require a more urgent response, if you have concerns about your child's health and well-being at any time or if you have queries about this initiative, please contact the school nursing team on the number above.
