Wednesday 15<sup>th</sup> October 2025

### High View Science Fair

Dear parents/carers,

We are excited to announce that our **High View Science Fair** will take place on Monday 3<sup>rd</sup> November 2025, from 3:30pm to 4:00pm.

This event is a fantastic opportunity for children, in years 1 to 6, to showcase their creativity and scientific thinking by presenting an experiment or science project of their choice. As this date is the first day back after the half-term break, children will have the week of the half-term holidays to prepare and work on their projects, ready to share them on Monday 3<sup>rd</sup> November.

If your child would like to take part, please note the following:

- They will be responsible for bringing in any resources or materials needed for their experiment or project.
- The experiment/project must be fully prepared and ready to present by Monday morning, ready to showcase at 3:30pm.
- If your child would like to participate, please [click here](#) to complete the google form, providing their name, year group, and a brief description of the experiment or project they will be presenting. A paper copy of this form can be made available should you prefer.

Some child-friendly science experiments or project ideas include: baking soda volcano, dancing raisins, magnetic slime, balloon rockets, and many more which can all be found on YouTube.

The science experiments or projects will be judged on the day, with prizes awarded to the top 3 projects!

Even if your child chooses not to participate, we warmly invite you to attend the science fair and explore the incredible projects and experiments on display.

Also, if you work in the science field and would like to help judge the science fair and present prizes at the assembly on Wednesday, 5th November, we'd love to have your support. Please email me at [woodpeckers@highview.school](mailto:woodpeckers@highview.school).

We look forward to seeing the brilliant ideas and experiments our young scientists come up with!
