

Schema Texts

Rationale:

- Our schema texts are carefully chosen high-quality books designed to deepen children’s understanding of key concepts and themes that support learning in Key Stage 1 and beyond. These texts are explored across both Nursery and Reception, ensuring that all children encounter essential ideas repeatedly and meaningfully throughout the EYFS.
- Because around half of Reception children do not attend our Nursery, we revisit and embed key schema texts in Reception to guarantee **equitable access** to foundational knowledge and language. This approach ensures no learning is left to chance and helps build a strong schema that supports future learning in subjects such as science, geography, and history.
- Our schema texts are complemented by the 2-Year Progressive PLOD cycle, which introduces and develops key themes over time, ensuring every child is well-prepared for Key Stage 1.
