Vowel Sounds as Split Digraphs

Up until now your child have always seen letters together making one sound- ch, ch, th, ai, ng, igh for example.
A split digraphs is exactly that, split. There is one letter between them. The 'e' on the end tells the vowel to say its name not its sound.

Phonics Screening Check June 2027

- Every Year 1 child in the country will be taking the phonics screening check in the same week in June.
- The aim of the check is to ensure that all children are able to read by the end of year two.

What are the children expected to do?

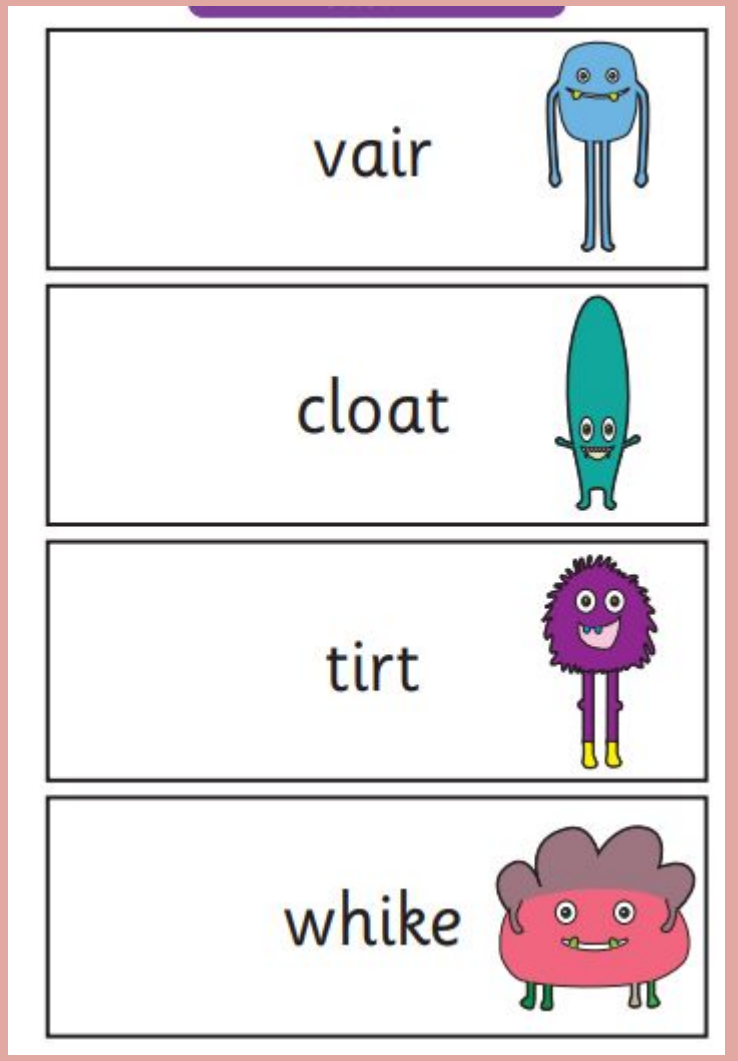

The children are tested on 40 words.

Some real, some alien/pseudo.

We carry out mid-way checks throughout the year.

The official check will be carried out by your child's class teacher in a quiet place.
